First Grade Pumpkin Engineering Project

Our first graders have been working on a Pumpkin Drop Project. First grade students worked individually on creating a blueprint for their pumpkin drop device. Then students worked together in groups of 6 to share their blueprints and to determine which blueprint would be the best device to build in order to prevent their pumpkin from breaking. The students used skills they learned from our air and weather unit such as gravity and air resistance along with the five-step engineering design process of ask, imagine, plan, create, and improve.

Preschool Winter Get Together!

Monday, January 9 from 3:00 - 4:30 PM

Attention all preschool families! Come warm up and celebrate the new year as we look forward to all that awaits our preschoolers in the coming year! Join us in a decorating mitten craft, enjoy a cookie and cocoa and explore what awaits our preschoolers as they look forward to pre-kindergarten and kindergarten.

****Do you know a family looking for preschool or kindergarten?
Invite them to join along!****

RSVP to Bonnie Rocklin at [bonnie.rocklinefrassatiwbl.org](https://www.bonnie.rocklinefrassatiwbl.org).

Richard M. Schulze Early Learning Scholarship

The Richard M. Schulze Early Learning Scholarship application is now open. This is for families with preschool students. Visit <https://www.schulzefamilyfoundation.org/> to reach the Schulze Family Foundation website and the Early Learning Scholarships.

Applications are now being accepted for the 2023-2024 school year.
